DETAILED ACTION

Election/Restrictions

Applicant's election of Group II, claims 1-11, 17-19, 25-27, 33-49 and 51-107 in the reply filed on 9/9/2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Claims 1-11, 17-19, 25-27, 33-49 and 51-107 will be examined to the extent they embrace the elected subject matter. Applicants' election of compound 77 is also acknowledged.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Claims 1-11, 17-19, 25-27, 33-49 and 51-107 are pending.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Art Unit: 1624

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-11, 17-19, 25-27, 33-49 and 51-107 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-25 of U.S. Patent No. 6,653,316. Although the conflicting claims are not identical, they are not patentably distinct from each other because when $M = R^1-C$, the same genus of compound, its composition and method of use claimed in the instant claims are also claimed in the claims 1-25 of US 6,653,316.

Claims 1-11, 17-19, 25-27, 33-49 and 51-107 rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-14 of U.S. Patent No. 6,750,342. Although the conflicting claims are not identical, they are not patentably distinct from each other because when $M = R^1-C$, the same genus of compound, its composition and method of use claimed in the instant claims are also claimed in the claims 1-25 of US 6,750,342.

Claims 1-11, 17-19, 25-27, 33-37 and 54-107 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-37 of copending Application No. 10/276,171. Although the conflicting claims are not identical, they are not patentably distinct from each other because when $M = R^1-C$, the genus of compound embraced in the instant claims of overlap are with those also claimed in the claims 1-37 of copending application 10/276,171.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
